AnyDVD is a DVD ripping tool that makes it easy to rip any DVD to any format. When you're ripping a DVD to a file, anyDVD will make sure the ripped DVD is in a playable form. You can then use this ripped DVD as a backup. AnyDVD requires you to create a backup DVD before you can start ripping. This DVD acts as an index for the disk. You're then able to pick or browse through the backup DVD to get to the bits you want. When you rip a DVD, AnyDVD makes the file in a suitable format for you to burn back to DVD as a backup. You can also use this file as a backup. The tool also lets you personalize each DVD so you can set the background, selection or subtitles. AnyDVD is a standalone application. You can therefore use this to rip a DVD without having to change anything else. AnyDVD requires you to install the software on your computer. The installation process is as simple as copying the AnyDVD files to a folder. 6d1f23a050
